New York, July 23 .- From its irregular drift in the previous session, to-day's stock market became reaction-ary, with more low records in government issues. New Haven and some of the doubtful specialties, chiefly Petro-leums. The movement was comparatively narrow, and trading small in

The Mexican situation loomed more The Mexican situation loomed more prominently than at any time in weeks, but was less depressing than the further decline in government 2s, which yielded to 96 1-4. Sales of these bonds, in part at least, were evidently for account of small interior institutions, and rumor had it that some fairly large blocks of this issue had changed hands "over the counter" at well under the lowest stock exchange quotation. Another event which made for bullish caution was the expected demise abroad of Anthony N. Brady, for many years active in the affairs of for many years active in the affairs of such corporations as Brooklyn Rapta Transit, Consolidated Gas, United States

Rubber and American Tobacco.

Trading became extremely dull in the late hours, save for a smart movement in Amalgamated Copper, which failed to impart any material strength elsewhere, the closing again inclining heaviness, particularly in New For the third consecutive day Lon-

New Orleans, La., July 22.—Weakness was again displayed by the cotton market to-day, praitcularly in the summer menths, July at its lowest was nearly 75 points or three-quarters of a cent a pound under Monday's closing level. Continued liquidation of the long interest was chiefly responsible for the decline, although improved weather conscious in the belt stimulated selling of the lew trep months. At times considerable activity prevailed around the ring. A feature of the day was the selling of August under July. August falling to Hé analyst interestivity prevailed around the find decline and the low on July. This fulfiled leartsh predictions made some time are.

The opening was steady, unchanged to 1 point un compared with yesterday's close. Indicate were about an dise. The near months lightly disease in mediately after the first call, and continued to fail off until round the middle of the merchan when it is and the middle of the merchan when it is an interest to develop the continue when it is an interest to be plant down. August was from a and the new crop months were to down it has were the lew levels of the day except in less of \$7725 points. Several partial reverses took place during the day, but they identified that droughly conditions over a are part of the held had been reflected and are part of the held had been reflected and between the little and the forecast promised showers and unsettled outlet for middling. "Kindly State

If you allow any interest on a running account. The Trust Companies of Washington, D. C., allow this, and I find it a pleasure to do business with them?"

The above quotation is from a letter received yesterday from a person living away from Richmond.

Our reply was, that we solicit such accounts and allow 3 per cent interest.

LEADING BANKS CHECK EXPANSION

Borrowers Can't Get Accommodations, and Dull Market Results.

BY BROADAN WALL.

New York, July 23 .- Rumor travels fast in Wall Street, quicker in fact than the best telephone connection or a wireless message. Shortly after 10 o'clock to-day, many of the leading commission houses were advising their customers to take profits and suggesting that the stock market was probably due for a period of reaction or at least hesitation. Tracing these rumors, it was discovered that some of the leading banking interests had intimated that further activity and extimated that further activity and expansion in the stock market at this time would not be agreeable. It is one thing to buy stocks and another to find accommodation at the banks, and when intimation is given that further accommodations will not be well received the hint is quickly adopted. This should not be considered as detrimental to the market. It means the bankers have the situation well in hand and are not disposed to accommodate

bankers have the situation well in hand and are not disposed to accommodate their clients at this time.

Duliness in the market resulted. Those who wished to secure profits found that they could do so at slight recessions in prices, and the situation is stronger for the curtailment in business. Sentimentally, the weakness in government bonds is the most important influence. Fortunately, banks, trustees and executors are principally affected, and the public is not directly concerned in the declining bids that succeed each other on the exchange. Government 2s sold at 963-4, and 961-2 was the best bid. It is believed that any large offering would break that any large offering would break the price still further. Looking at these bonds purely as an investment it is figured that in comparison with

British consols they are not worth more than 75. New Haven convertible 6s broke to New Haven convertible 6s broke to 167, and this compares with 115 on 167, and this compares with 115 on Monday last. This had an adverse effect on New Haven stock that dropped to par. Baltimore and Ohie announced the sale of \$5,000,000 first mortgage 4 per cent bonds to a syndicate of bankers who are offering them at 83. This was discouraging, as it was understood that the Baltimore and Ohio land completed its financial arrangecompleted its financial arrange
